Objective

Passionate frontend developer with a strong dedication to solving problems through clean, efficient code. Equipped with solid experience in building responsive and user-friendly interfaces using React, TypeScript, HTML, CSS, and JavaScript. Adept at collaborating within cross-functional teams to deliver solutions that meet both technical and client expectations. Strong soft skills in problem-solving, effective communication, and teamwork, seeking to contribute to dynamic projects that drive innovation and growth.

Skills

- React
- TypeScript
- Tailwind CSS
- Git

- Communication
- Problem solving
- Time management
- Team work

Professional Experience

Senior React Frontend Engineer | Zarttech, Full Time | July 2024 - Present

- Collaborate with UI/UX designers to implement designs into responsive websites for the company and its associated projects.
- Develop and maintain user interfaces using React.js and TypeScript.
- Ensure website responsiveness across various devices and screen sizes.
- Utilize Tailwind CSS for efficient and modern styling of components.
- Collaborate with a cross-functional team, using Git for version control and task management.
- Contribute to the development lifecycle through code reviews, feedback sessions, and continuous improvements.

Senior Frontend Engineer | RahaPay, Remote | May 2024 – July 2024

- Implemented user interfaces for RahaPay's fintech services (data purchase, airtime purchase, wallet-to-wallet transfers) based on UI/UX designs.
- Integrated backend API endpoints to dynamically display data and functionalities in the application.
- Ensured a seamless and responsive user experience across mobile and desktop devices.

- Utilized React.js, TypeScript, and Tailwind CSS to create scalable and efficient front-end components.
- Collaborated with backend developers and the design team to deliver high-quality products on time.
- Managed code repositories and collaborated with the team using Git.

Frontend Engineer | Tati technology | March 2023 – April 2024

- Managed and oversaw all technical operations, ensuring the company's website remains fully functional and optimized.
- Maintained client websites, ensuring they meet quality standards and align with client specifications.
- Utilized HTML, CSS, and JavaScript to implement website updates and improvements.
- Collaborated with teams to deliver technical solutions that align with business goals.
- Used Git for version control and efficient collaboration across development projects.

Frontend Engineer | Bitpoint Inc | March 2020 – February 2023

- Contributed to improving the user interface and user experience of the platform for better efficiency in managing school activities.
- Gained valuable experience in frontend development and client management within the educational technology sector.
- Provided technical support to clients, resolving issues related to the school management software.
- Collaborated with senior software engineers to develop functionalities that aligned with client needs and expectations.

Intern Frontend Developer | Fasaha ICT Consultancy | February 2018 – February 2020

- Learned essential web development technologies, including HTML, CSS, JavaScript, jQuery, React, and Redux through freeCodeCamp.org.
- Collaborated with fellow interns to discuss concepts and apply new skills in practical projects.
- Participated in web development meetups to expand knowledge and network within the tech community.
- Applied hands-on learning to real-world scenarios, enhancing both technical and teamwork skills.

Projects

- https://zarttech.com/ : Work in a team of frontend developer to create the zarttech official website.
- https://www.rahapay.com/ : Build the RahaPay official website.
- https://www.tatitech.ng/ : Supervised the design of tatitech website.

Certifications

- Full Stack Developer – freeCodeCamp.org
- Front end Development Libraries – freeCodeCamp.org
- JavaScript Algorithm and Data Structure – FreeCodeCamp.org
- Responsive Web design – freeCodeCamp.org

Education

- National Certificate in Education in Computer Science/Physics | Federal College of Education Yola, Adamawa, Nigeria | 2018
